CLASSIC COLLECTION

CLASSIC

The enduring aspect of many buildings is natural stone. Its use on exteriors and interiors remains unquestionably a commanding testimony of choice.

All the natural stone thin veneer in our Classic Collection is curated to express the beauty of any classic architectural style.

RUBBLE

These irregularly-sized, broken field stones are partially shaped as rectangles and squares. Depending on the profile, the face of this natural stone thin veneer appears either split or finished. Rubble looks exceptional installed either as a standard rake, no-rake or overgrout joint.

AMERICAN MODERN COLLECTION

AMERICAN MODERN

Stylish and Functional. Minimal and Sophisticated. Clean. Streamlined.

Natural Stone has always adorned the distinct, identifying exterior and interior features of Mid-Century-Modern architectural style. Our American Modern collection is the ideal natural stone thin veneer for your next project.

NEO LEDGE: SAWN

This ledgerstone, wider in length and often installed drystacked, has sawn horizontal and vertical edges which creates straighter joints. Typically, Neo Ledge Sawn's surface, when viewed closely, is slightly rough but overall, the face of the stone appears relatively smooth.
